

Foster Care and Community Programs – Nevada

Description

KidsPeace Foster Care and Community Programs (FCCP) is a community-based therapeutic foster care program for children needing placement outside of their family of origin. The program serves children with a wide range of emotional and behavioral issues. FCCP trains qualified families in the community to provide individualized treatment to children in care. Treatment needs are best met when the characteristics of the treatment family are closely matched with the individual needs of the child. The Nevada FCCP office is located in Las Vegas, NV, Clark County.

Population Served

The program serves males and females from infancy to age 18. Treatment services address a wide variety of social and emotional difficulties, developmental delays, learning problems, psychological disturbances and behavioral challenges.
